

TAYYEB ULLAH

AI Engineer

+92 317 9818016 | ullahtayyeb19@gmail.com | github.com/Tayyebwazir | linkedin.com/in/tayyeb-ullah | KPK, Pakistan

PROFESSIONAL SUMMARY

Results-driven AI Engineer with hands-on expertise across Machine Learning, Deep Learning, NLP, and Agentic AI systems. Proven track record designing and deploying production-grade LLM applications, including fine-tuned language models, Retrieval-Augmented Generation (RAG) pipelines, and multi-agent orchestration frameworks. Skilled in translating complex research into scalable, real-world solutions using LangChain, LangGraph, HuggingFace, and FastAPI, with a strong foundation in MLOps and cloud deployment. Adept at collaborating across teams to deliver intelligent automation systems that drive measurable business impact.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL

AI / ML: Machine Learning, Deep Learning, NLP, Generative AI, Agentic AI, LLM Fine-Tuning (QLoRA, PEFT), RAG, Multi-Agent Orchestration

Frameworks: PyTorch, TensorFlow, HuggingFace Transformers, LangChain, LangGraph, LangSmith, FastAPI, Streamlit, Gradio, FAISS, NLTK, bitsandbytes, Scikit-learn

Generative AI: Google ADK, Gemini, Claude, Groq (LLaMA 3.3), RAG Pipelines, Multi-Agent Systems

Frontend: React, Streamlit, Gradio

Deploy / Cloud: Docker, Kubernetes, Railway, AWS, HuggingFace Spaces

Databases: MySQL, SQL, SQLite, Supabase, FAISS, Qdrant

Tools: Git, GitHub, n8n Automation, Jupyter Notebook, Google Colab, VS Code, Claude Code

Spoken Languages: English (Proficient), Urdu (Native), Pashto (Native)

WORK EXPERIENCE

AI/ML Engineer

Present (4 months)

YBIX · Lahore, Pakistan

- Currently working at YBIX as an AI/ML Engineer.

AI & NLP Engineer

ITSOLERA Pvt. Ltd. · Pakistan

- Built production-ready conversational AI chatbots and agentic AI pipelines for automated assistance and information retrieval.
- Integrated LLMs, LangChain, and NLP workflows to create intelligent decision-making systems with improved user experience.
- Designed multi-tool agent architectures capable of dynamic reasoning and real-time API interactions.

Deep Learning Engineer

ITSOLERA Pvt. Ltd. · Pakistan

- Developed sequence and text-processing models using RNN, LSTM, and Transformer architectures.
- Improved model accuracy through systematic hyperparameter tuning and optimisation for deployment readiness.

PROJECTS

Pashto Mid-Scale Language Model (FYP) — Python · PyTorch · HuggingFace · QLoRA · PEFT · bitsandbytes

- Developed a mid-scale Pashto language model capable of conversational interactions and question-answering.
- Applied QLoRA fine-tuning on Qwen2.5-7B with PEFT, 4-bit NF4 quantisation, and SFTTrainer on ~40,000 Pashto QA samples.

IntelliHire — AI-Powered Recruitment System — Streamlit · Claude · Python · PDF/DOCX Parsing

- Built an end-to-end AI recruitment platform covering JD creation, bulk resume parsing and AI-based candidate scoring, automated shortlisting and interview invites, a voice/text AI interview chatbot, and a unified HR dashboard with PDF evaluation reports.

Enterprise RAG System with RBAC & PII Guardrails — LangChain · Qdrant · FastAPI · Streamlit · LangSmith · Microsoft Presidio

- Production-grade RAG system with role-based access control and Microsoft Presidio PII detection (Pakistani CNIC patterns).

- Integrated Qdrant vector store, LangSmith monitoring, and Streamlit frontend for end-to-end deployment.

Multi-Modal Disinformation & Verification System — *NLP · Computer Vision · PyTorch · FastAPI*

- AI system combining NLP and computer vision to detect and verify fake news across text and image modalities.

Multi-Tool Agentic AI System — *LangChain · LangGraph · FastAPI · Groq*

- Modular AI agent integrating multiple tools and APIs for autonomous task automation and intelligent decision-making.

Market Research Agent with Live Web Search — *LangChain · Groq · FastAPI · Streamlit*

- AI-driven research assistant that autonomously collects, analyses, and summarises real-time market intelligence from the web.

Traffic Sign Detection System — *YOLOv5 · OpenCV · PyTorch*

- Real-time deep learning object detection model for road signs in autonomous vehicle applications.

EDUCATION

BSc in Software Engineering

University of Engineering and Technology Mardan (UETM)

CERTIFICATIONS

- Machine Learning Specialisation — Coursera (Andrew Ng / Stanford University)
- AI & NLP Engineering Program — ITSOLERA Pvt. Ltd.
- Deep Learning Certificate — ITSOLERA Pvt. Ltd.
